25X1

1. OL reports that the Transportation Management Branch, Logistics Operations Center, made a comparison study of long-haul mileage for the period 1 April 1986 to 31 March 1987. Over-the-road vehicles have logged 149,420 miles in the last six months, an increase of 19,946 miles over the prior six months.

25X1

m. OL reports that the DCI's office suite located in the Executive Office Building was painted on 5 April by General Services Administration's White House Work Group. [REDACTED]

25X1
25X1

o. In order to reduce morning rush-hour congestion near the George Washington Memorial Parkway entrance, OL reports that the traffic traveling around the Headquarters compound ring road from the Route 123 entrance towards the west parking lot area is being diverted through the north parking lot. The detour is in effect from 0715 to 0900 hours and will last approximately two months. [REDACTED]

25X1
25X1

q. OL reports that a General Services Administration (GSA) representative conducted an inspection on 2 April of the second-floor roof of the Headquarters Building. The inspection concluded that the roof was in need of major repairs. The estimated cost of these repairs is in excess of \$1 million. [REDACTED]

f. OL reports that there will be a total Headquarters compound steam outage on Saturday, 11 April, from 0600 to 1500 hours. The purpose of the outage is to perform work on the hot-water tank in the P&PD Building and repair some steam leaks at the Central Plant and the Headquarters Building. There will be a partial Headquarters Building power outage on 11 April from 2330 hours to 0430 on 12 April. The purpose of the outage is to make necessary repairs to the electrical switchgear in the "D" vault, conduct maintenance, and install one new power panel. The outage will affect all lighting and receptacles. An Employee Bulletin was distributed.
